Application

It is used at railway, aviation and other transportation area and some special fields, serving as signal indication, safety warning and normal illumination.

Characteristics

- ZW7600 uses CREE LED light source, with 100,000hours service life. The reflector adopts hi-tech surface finishing technology, make sure a high light reflectivity. The effective beam range can exceed 100 meters. Any two of the red, yellow, green light can be chosen as signal light. Its colored signal light's beam distance can reach 5,000meters.
- Equipped three color light: red, green, yellow. Its colored signal light's beam distance can reach 5,000meters.
- It is sealed to IP65 preventing the ingress of water; The housing is made of PC material, drop resistant to 1 meter. It can withstand high and low temperature suitable to be used in all kinds of harsh environment.
- The rear light on its tail is ideal as a personal indicator to identify the position of the users. It eliminates the danger and ensure the user's safety in the dark.
- Use of the latest large bulk capacity lithium-iron battery with long service life improves reliability and eliminates 'memory' affect.

Main Specification

Specification	Unit	values	
Rated voltage	V	3.7	
Rated capacity	mAh	4400	
Light output	lm	170	
Continuous runtime	Lighting	h	≥10
	Sign	h	>30
Recharge time	h	<6	
Average service life	h	100,000	
Service life of battery	Times	≈1000	
Dimension	Diameter	mm	φ66
	Length		172
Net weight	g	265
